

## COSC 305 Project Summary

### ***Group Member:***

Lydia Chien #58850892

Qianyu Shang #18991588

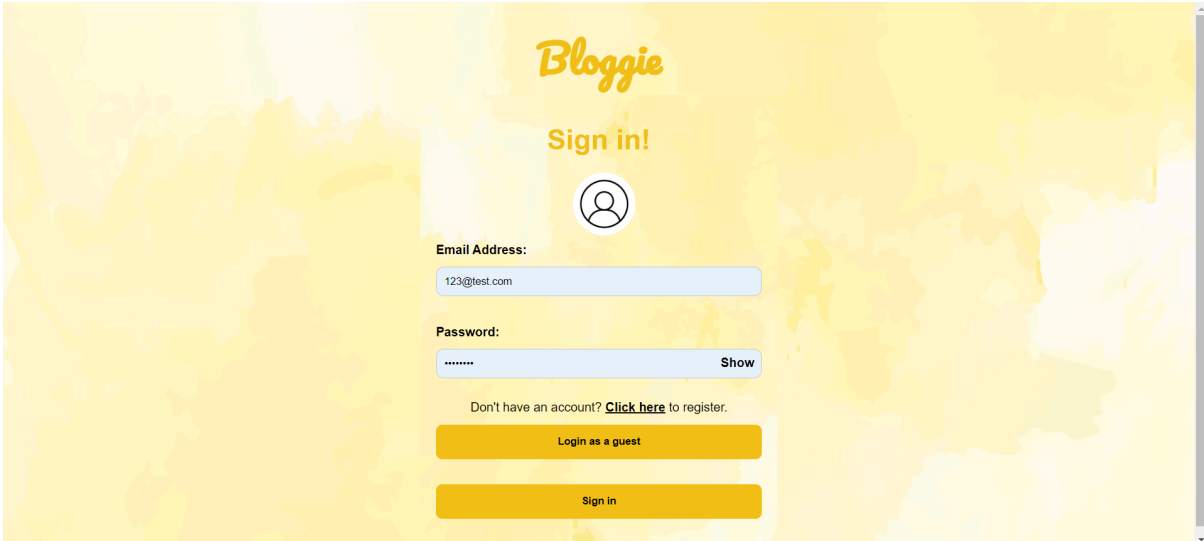

Wenrui Chen #56362320

*Until today, our group has completed most of the required functions in our previous proposal. The following will be highlighting the functionality that we have successfully completed. Overall, we have most of the functions outlined for the project, however, we definitely consider there will be more adjustments needed to be made for the project success.*

### ***Sign In Page (Login Authentication)***

This page will be seen by the users when first entered our website. Our Sign in page is designed to be login with registered email and password set by an individual user.

Unregistered users have two options, which is to sign up to be our member or continue as a guest.

A screenshot of a web page titled "Bloggie" with a yellow background. The page features a "Sign in!" heading and a user icon. Below the icon are two input fields: "Email Address:" with the value "123@test.com" and "Password:" with masked characters "\*\*\*\*\*". A "Show" button is next to the password field. Below the inputs is a link: "Don't have an account? [Click here](#) to register." At the bottom are two yellow buttons: "Login as a guest" and "Sign in".

Don't have an account? [Click here](#) to register.

[Login as a guest](#)

[Sign in](#)

### ***Sign Up Page (User Signup)***

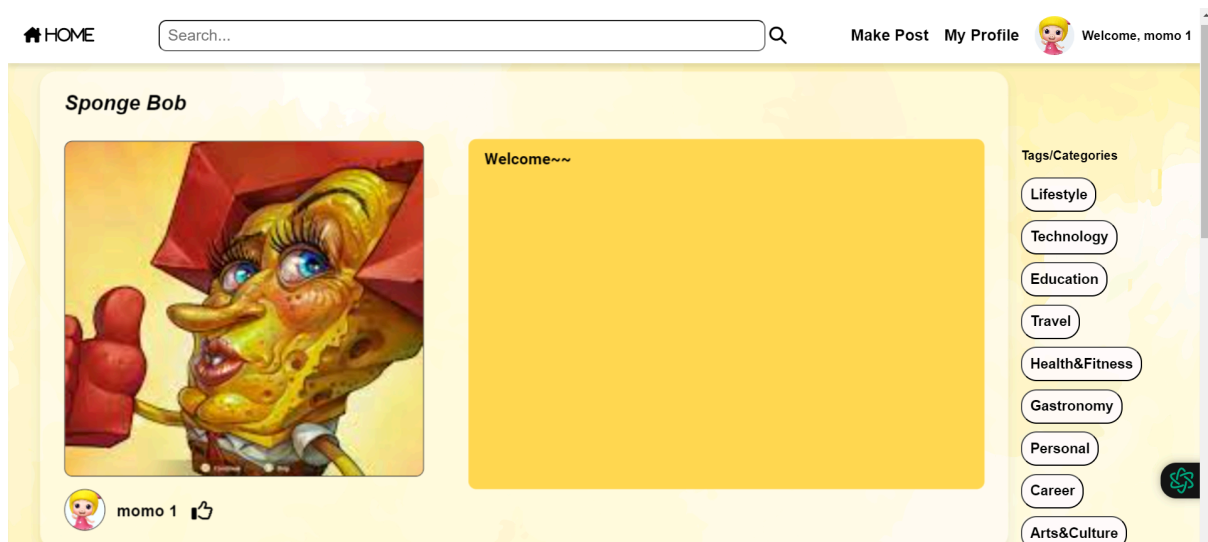

When a user clicks on the “Click here” to register in the sign in page, they will be directly transferred to this Sign up page. The required section must be entered to continue registration, if not, the alert will pop up. If the user accidentally enters this page, they can click on the “Click here” to log in, and transfer to the login page. The registered user’s information will be stored in our system to prevent duplicate registration.

The registration form is titled "Register now!" in orange text. It features a user icon placeholder at the top. Below it are four input fields: "First Name:" with a placeholder "Please type your first name", "Last Name:" with a placeholder "Please type your last name", "Email Address:" with a placeholder "123@test.com", and "Password:" with a placeholder "\*\*\*\*\*" and a "Show" button. At the bottom, there is a link "Already have an account? [Click here](#) to login." and a yellow "Sign up" button.

### ***Main Page (Like function, Navigation function)***

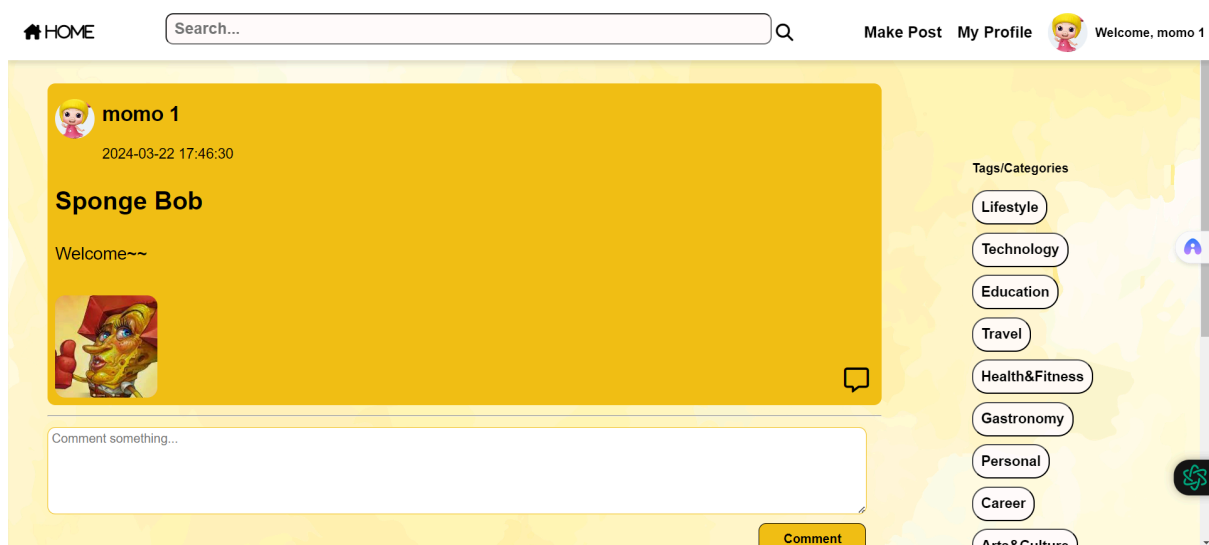

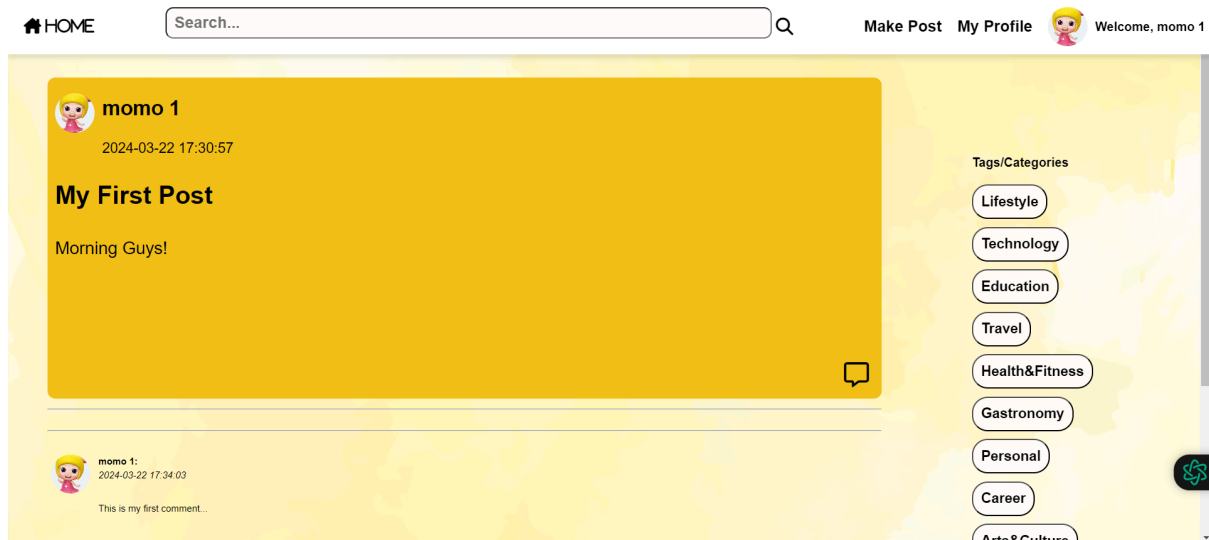

This page will be seen by those who have signed in. Main page consists of other users’ public posts, navigation bar for search function, make post function, main page navigator, and my profile. The public posts can be clicked to make further comments and the thumbs up for supporting creators. *However, the search function have not yet been completed, we will be working our best to complete it beforehand.*

The main page layout includes a navigation bar with "HOME", a search bar, "Make Post", "My Profile", and a user profile icon with the text "Welcome, momo 1". The main content area features a post by "Sponge Bob" with a cartoon image of a character and a "Welcome~~" message. The sidebar on the right lists "Tags/Categories" including Lifestyle, Technology, Education, Travel, Health&Fitness, Gastronomy, Personal, Career, and Arts&Culture.

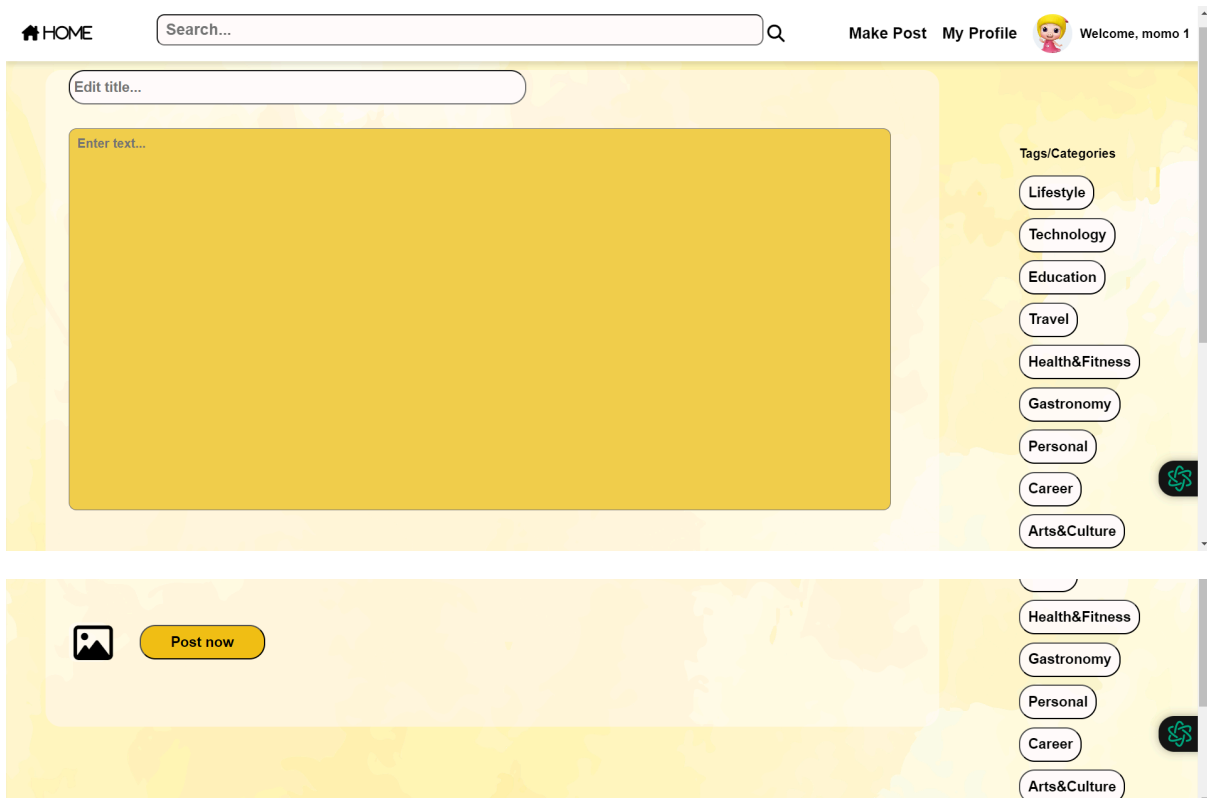

### ***Post Content Page (Comments function)***

When users click on the post on the main page, they will be transferred to the bigger view of the post. In this page user are able to see the full content of the post as well as to make the comment on the post.

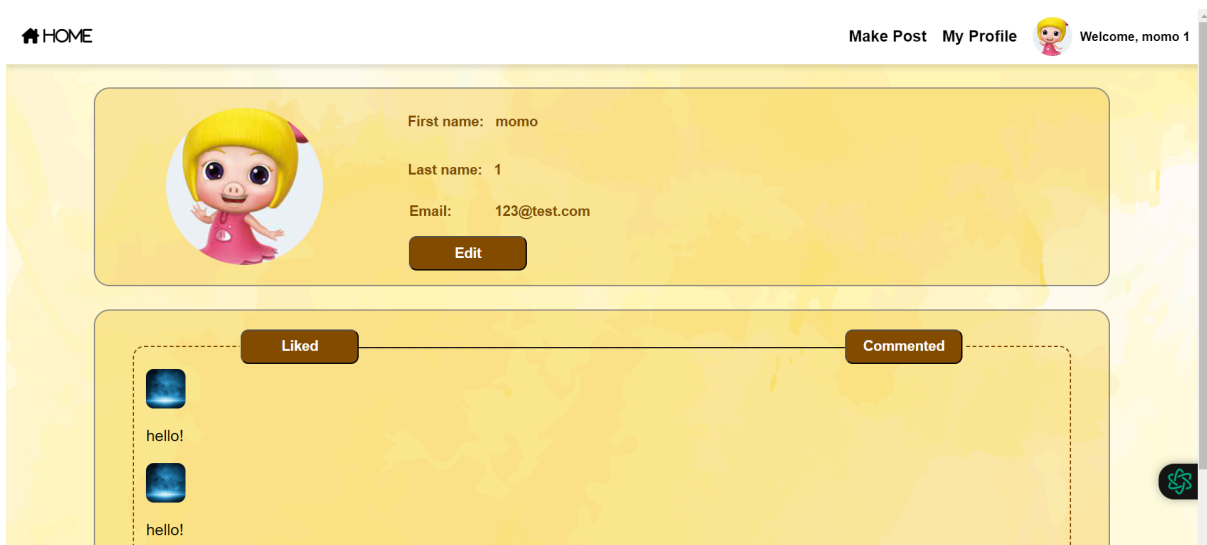

### ***Make a Post (Post Stories Function, Tag function)***

Users use the “Make Post” function and direct to this page. In this page users should enter the title for the post, content and picture by their choices. They are allowed to add the tag through the tag bar listed on the left. Users are allowed to use one tag for the post. When finish formatting their post, click on the make post button and the post will be transferred to the main page.

### ***Profile Page (Edit Profile Function)***

Through the use of the My Profile button on the navigation bar in the main page, users will be seeing this page. In this page, users are able to edit their information through the edit button. The information will also be changed in our back-end. Users will also be able to check out their previous liked posts and comments. *The Likes and Commented will still need some revising in the future.*

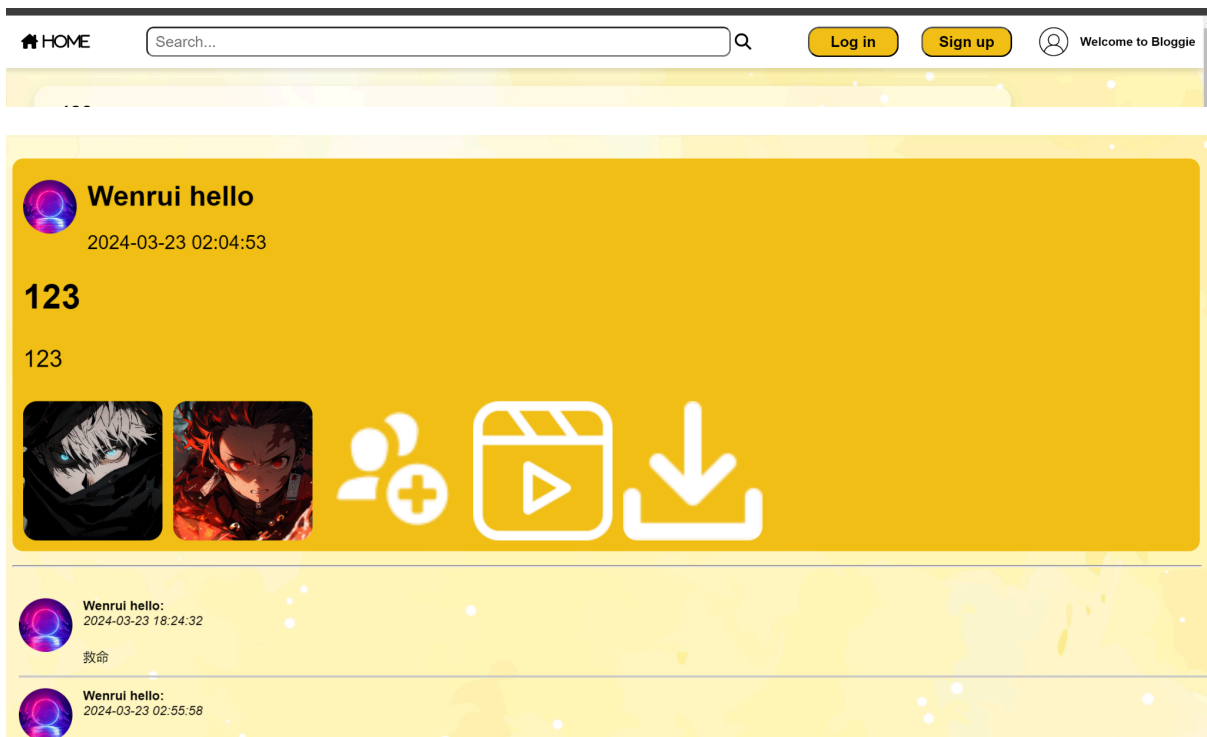

### ***Edit Profile***

This is what the user will be seeing when clicking on the edit button. Account Picture, name, and email can all be changed for users' preference.

A screenshot of the 'Edit Profile' form. It features a circular profile picture of a cartoon pig character with yellow hair and a pink dress. To the right of the picture are three input fields: 'First name:' with 'momo', 'Last name:' with '1', and 'Email:' with '123@test.com'. Below these fields are two buttons: 'Cancel' and 'Save'.

### ***Guest Function***

Guests are not allowed to make comments, the comment button will not be showing on their page. This page will be shown when you click on "Log in with guest" on the sign in page. There will be 2 buttons for you to sign up and sign in on the sidebar part.

### ***Admin Function***

Admin can find their admin function when moving the cursor on the profile photo of the main page. When they click on the Admin button, they will be directed to an admin page that can delete other users' accounts (deletePost is still developing).

ake Post My profile  Welcome, Wen
